21 Moov (7 in 1)

This is a beautifully manufactured kit that allows a child to build one of seven pieces including a scooter, recumbent and upright bikes. Then, when you've built it, you get to ride on it. Pricey but brilliant.

22 Schleich Figures

This German company makes beautifully detailed figures. The safari set with its truck is great and, for girls, the elves are very well crafted and there is a rather lovely Elf boat made from a green leaf. The key is to pick a subject and stick to it.

23 Silver Cross Fabric Book

It's very hard to buy for the tiny babies, but this is a gorgeous little book from Silver Cross. In addition to this, check out the Owl and the Pussycat range of cuddly toys.

24 U-Create Music

It looks a bit like a plastic telephone gone wrong, but if little Jimmy has an iPod, he's so going to want one of these to go with it. You become the DJ and this bit of kit allows you to mix tracks, add different beats and riffs and even your own voice.

28 Rubik's TouchCube

Well, it was probably inevitable, the old cube had to get new tech and now it's come over all iPhone and has six touch screens. So you just swipe the screen in the direction you want to go instead of wrestling with the old version.
